By on April 18, 2012 I've bought this for about \$300.00 from Amazon for Mac. It is an absolute scam, there are no pictures on the page at all, I can't get into the help or readme files. The guy sent me the file zip, it had 14 files inside, when i finally got it on the computer it had only 3 files inside, all of them were a zip file that was only.swf. All the software I've seen from this company are the exact same, it looks like they make the same software over and over, they call it different things on the net, and advertise the other software as being free. Then I found out the file i was sent was a 90 day trial, so I paid \$150.00 to try it out and even though there is NO help files at all, I STILL can't figure out how to get the stuff to work. So where is the help files? I asked, and they haven't got any. I've emailed them and they haven't responded. I have yet to get a refund on this product either. I have given them 20 days to resolve it and they still haven't given me a solution. I'm never buying another tool from this company, and any review that says

Flash Maker Suite Download PC/Windows

BT Watcher Pro is a professional and simple program that allows you to monitor network traffic, including traffic on your local network and any Internet connections you have set up. This tool is designed to help parents and employers monitor online activity of their children or employees, while protecting your privacy.
