Pierocom At 08:06 PM 12/4/10, you wrote: you want me to put some sort of code on the home page because i need it. i can update the vhd files so you can have access to them, you can put down any kind of code, as long as it allows others to access the files too. Well, if you have an upload hosting you can just use Filezilla to place your files in a designated directory where your site is located. If you need FTP access so that you can upload new versions of VHDs whenever you want, be sure to check out a guide on how to do FTP access through command line or through a web interface such as Filezilla or CuteFTP. Q: Sql Server 2008 insert and update in same query? How do I insert a row and update a value in a table (both primary and foreign keys are defined) in a single sql statement? I need to do this if an Id was found when inserting. If an Id does not exist, I need to update it, and if I am updating an existing row, I need to insert a new row (or at least update the existing one). A: If you want to insert or update, check for null and then update or insert - something like this: -- Insert if @Id is not null insert.... else update.... -- Update if @Id is not null update.... else insert.... SR-BI activity on LDL particles. The scavenger receptor class BI (SR-BI) mediates uptake of native and oxidized lipoproteins and may therefore affect lipid metabolism and atherogenesis. However, little is known about the underlying molecular mechanisms of SR-BI activity. Here we investigated direct effects of SR-BI on LDL receptors and cholesterol efflux. LDL uptake was determined in human hepatoma cells (HepG2). Heterodimerization of SR-BI and the LDL receptor was examined in double-transfected COS-1 cells. Cell-cell-contact-mediated cholesterol efflux was determined in COS-1/E10 cells expressing SR-BI. Incubation with LDL-cholesterol for 24 h stimulated uptake and heterodimerization of SR-BI and the 3633713323
