Those “older” DCS World users, for some reason, do not like today’s update. So, we will see what to do with that. DCS: Hornet Fighter-Bomber (F-18C) - DCS World [Fix] This is my team's first DCS World release. Hornet by DCS team, APU - JTAC - Exhaust - Weapons - Textures. Category:Combat flight simulators Category:Microsoft games Category:Microsoft franchises Category:Microsoft private planes Category:Windows games Category:Windows-only games Category:Video games developed in RussiaHip Hop Split Ok, so I'm a hater, deep down inside I wish it was love. Why shouldn't it be? I love all genres of music and can listen to any kind of music and enjoy the fact that music. I'm a classic entertainer and love music like no other. I don't believe in listening to music over and over and over again like many people. I have chosen to keep music as a hobby over the years and listening to several genres of music. To me Hip Hop is like every other genre of music...based on the perception of one person. Some things to me are good, some of it's good, some of it's good, some of it's bad, some of it's really bad, some of it's awesome, some of it's awesome, some of it's good. I feel that some of the songs that are good are just really catchy songs and some of the bad are songs that can hold your attention for a little while and then fade away. There are a ton of people that listen to hip hop, and there are almost as many who don't. As far as me, I don't really listen to hip hop. It's a very prominent genre in my eyes. I love it when I can listen to an entire song and then start questioning if there is any benefit to it. I feel it's just so repetitive and catchy that sometimes I'm wondering why I don't listen to other genres of music. If there is any benefit to it, then I see value in it, but I can't seem to find the reason to listen to it every day. So I'm back to square one, questioning 3da54e8ca3
