It's important to note that that you can always change your settings on your Personal Options page. Hi, I'm hoping you can help! So I got a cheap deskjet 1500c printer that I want to make into a micro printer. I was wondering if you have any suggestions for a software program to use? So far I've used GNU/Linux Pads version 3.3.0 and i have updated the latest version 5.0.1 from the website. So far I have cut the for the surface mount pads/pads. You can see in the image the outline/line of the pads and the center hole. For the pre-solder mask it would be very nice to have a software program to draw out the mask. Also is it possible to output an image to show the colors you see in the picture? I know you can do it 3da54e8ca3
